RESUBMISSION OF SEQUENCE DISKETTE

Sir:

In response to the Customer Service Center, Initial Patent Examination Division's request dated February 4, 2002, enclosed please find a replacement diskette. It is understood that the diskette mailed with the sequence submission on October 19, 2001, was found to be unreadable. Also enclosed for the Patent Office's convenience is a complete copy of our sequence submission as mailed on October 19, 2001, including a copy of the return postcard stamped received by the USPTO's Office of Initial Patent Examination (OIPE) on January 11, 2002.

20

REMARKS

Enclosed is a write protected floppy diskette with the sequence listing generated by the Patent Office's PATENTIN program. The Diskette should comply with the requirements of 37 CFR §1.824 and is IBM PC compatible with a PC-DOS/MS-DOS operating system. If the diskette has been damaged, please call Applicants and a replacement diskette will be provided. A hard paper copy printout of the diskette is attached thereto.

I hereby state the informational contents of the paper and computer readable copies of the Sequence Listing, submitted in accordance with 37 CFR 1.821(c) and (e), respectively, are believed to be the same. This submission introduces no new matter, since enclosed sequences are the same as sequences which were submitted in priority documents.

Applicants have invested a significant amount of labor and care in preparing the present submission. The enclosed items are a bona fide effort to bring the present application into full compliance with the rules for sequence submissions. Should this not be the case, Applicants respectfully request notification of specific deficiencies and an opportunity for remedy, as described in 37 CFR 1.135(c).

Applicants believe that no fees are required; however, if any fees are required by the present Response, the Commissioner is authorized to charge any fees or credit any overpayment to DNAX Research Institute Deposit Account No. 04-1239.

Respectfully submitted,

Date: March 27, 2002
